ST. KITTS AND NEVIS

St. Kitts and Nevis is a democratic Caribbean country with an economy driven by tourism. St. Kitts and Nevis is part of the Commonwealth with the Queen of England as head of state. The country is tax friendly with no personal income tax, no capital gains tax, no wealth tax, no inheritance tax, no gift tax and qualifying companies can acquire further tax exemption.

Saint Kitts and Nevis ranked third on U.S. News & World Report's list of "10 Best Islands in the World," beaten only by the Maldives (Indian Ocean) and Bora Bora (South Pacific). After outranking top Caribbean destinations such as Cayman Islands (eighth), St. Maarten (ninth), and U.S. Virgin Islands, Saint Kitts and Nevis is regarded by many as the #1 island in the Caribbean. In recent years, it has also been featured by Robb Report, an American wealth magazine, as one of the top 10 destinations "where the best time to buy is now."

Saint Kitts and Nevis is on its way to becoming the Caribbean's most luxurious and demanded destination. The island only recently diversified from the sugar industry to feature high-end tourism, and the landscape is seen as a blank canvas for sustainable and luxury development.
